# OUR STORY

All our products are designed and manufactured in our factory in Sasso Marconi, Bologna: we are particularly keen on carrying on the tradition of “**handmade**” which represents an important working method in the history of Italian craftsmanship and “**made in Italy**”.

In addition to tradition, however, we are aware of the need to embrace new technologies and more sustainable working styles: in fact, NRF adheres to the “*green purchase behaviour*”, that is encouraging sustainable production and contributing to the protection of natural resources through a “*greener*” economy: we include the use of recycled (or recyclable) materials, reducing CO2 emissions during production and consequently also pollution in favor of the ecosystem.

all our products information!

1997

NRF was founded in 1997 under the leadership of Livio Piccini and Gianni Mazzei in Pioppe di Salvaro, a small town in the province of Bologna.

2000

From a small family-run business, within just a few years of its founding, NRF began to establish itself on the national and international markets.

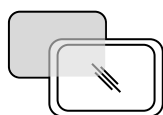

2017

In 2017, the company moved to Sasso Marconi, also in the province of Bologna, purchasing a 1.800 SQM warehouse and doubling its workforce.

2026

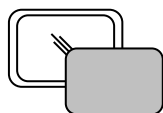

Since 2018 onwards, NRF has invested in next-generation machinery and has increasingly dedicated itself to research and development of new products. It has become increasingly recognized and established itself on the global market, exporting its products to various parts of the world.

# CATALOG INDEX

## INTERNAL BLINDS

*THERMO-SHIELD* internal blinds (**pages 4 to 7**)  
*THERMOMAG* internal blinds (**pages 8 & 9**)

## ACCESSORIES & SPARE PARTS

For internal & external blinds (**page 30**)  
For mosquito-net blinds (**page 31**)  
For window panels (**pages 32 & 33**)

# THERMO-SHIELD

Our evergreen product that never disappoints

**7-layer material**

**Radiation Reflective**

**Insulating hot & cold**

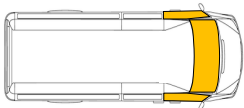

**Fixation with suction cups**

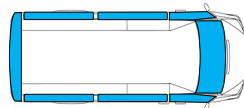

**Available in grey or black**

- They include reflective aluminum and insulating materials that prevent both heating and cold.
- No drills, screws, or external tracks required. The suction cups allow you to apply and remove the blinds in seconds.
- Custom-cut to fit specific vehicle windows, so they provide absolute privacy.
- They block out almost all external light, significantly improving sleep quality.
- The thermal blind acts as a protective shield from direct sunlight and UV rays.
- Practical storage: once folded or rolled up, they take up very little space (they are sold with a dedicated carry bag).
- They are produced internally in our factory: this allows us to have fast delivery times and guarantee consistent quality.

Thermo Shield is the ultimate insulation solution for motorhomes and campervans. Designed with a stylish fabric finish, it provides a superior thermal barrier while keeping your interior elegant, comfortable, and private.

- **7-Layer Tech:** Advanced multi-layer insulation for maximum heat reflection and winter warmth.
- **Washable Fabric Interior:** High-quality textile finish in Light Grey or Deep Black. Durable and easy to clean.
- **Total Blackout:** 100% light blockage for complete interior privacy and a restorative sleep.
- **Anti-Condensation:** Engineered to significantly reduce moisture buildup on glass surfaces.
- **Travel Ready:** Includes a practical storage bag for easy stowing and protection.
- **Heavy-Duty Suction Cups:** High-grip, non-marking suckers for a secure and long-lasting fit.

instructions &  
useful information

# DO-IT-YOURSELF KIT

The kit that offers the possibility of creating your own thermal blind

**7-layer material**

**Radiation Reflective**

**Insulating hot & cold**

**Fixation with suction cups**

**Available in grey or black**

In the kit you will find:

- 3,5 m x 1,55 m of insulating material (grey or black color)
- 30 suction cups (grey or black color)
- 30 plastic eyelets
- 30 m hem material (white/grey or grey/black color)
- 1 plastic sheet to prepare the template
- 1 practical TNT bag (blue or black color)
- The instructions for how to create your thermal blind

## GREY KIT

## BLACK KIT

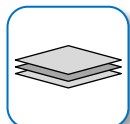

# COVER-THERM

A perfect second skin for the exterior of your camper van

**8 mm thickness**

**3-layer material**

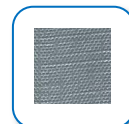

**Insulating hot & cold**

**Velcro felt to anchor the engine part**

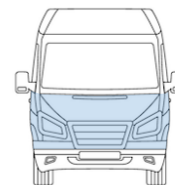

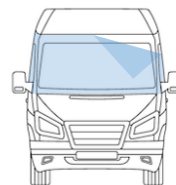

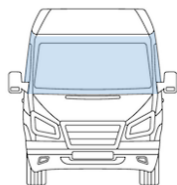

**Hook to the anchor the vehicle**

**Available in grey**

- Covering the vehicle from the outside, you eliminate the humid interior air: no more annoying drops of water that drips onto the dashboard.
- The cabin protection provides absolute privacy blocking out all external light.
- The thermal blind acts as a protective shield from direct sunlight and UV rays.
- Practical storage: they are sold with a dedicated carry bag.
- Being made of waterproof and synthetic materials, a simple wipe with a sponge is enough to remove dirt.

# COVERTECH EVOLUTION

The *premium* external blind: a perfect thermal coat for your camper van

**8-layer material**

**Insulating extreme temperatures hot & cold**

**Velcro felt to anchor the engine part**

**Premium suction cups included**  
*(for motorhome vehicles)*

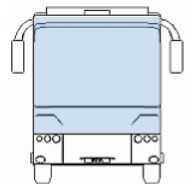

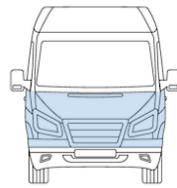

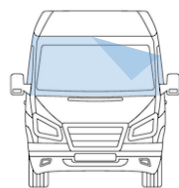

**Available in grey**

instructions & useful information

- Made of extremely soft but at the same time very resistant material.
- The engine protection helps providing snow or rain from accumulating in the windshield wiper mechanisms or blocking the air vents.
- The thermal blind acts as a protective shield from direct sunlight and UV rays.
- The covers are kept in eco-leather bags: practical, beautiful and resistant.
- For motorhomes, 4 suction cups are used for the application, which are aesthetically very beautiful and at the same time very functional (tested at extreme temperatures).

# MAG-NETS

Mosquito-nets for driver's cab windows and for sliding & rear doors

**NEW PRODUCT**

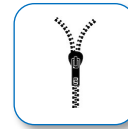

**Easy & fast installation**

**Protection against insects**

**UV resistant polyester fabrics**

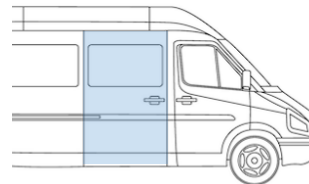

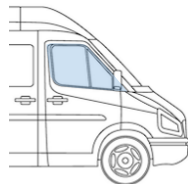

**Closure with zipper**  
(for lateral & rear doors)

**Attachment to vehicle with magnets**

- Fast installation with magnetic fixation.
- It ensures air circulation without letting in unwanted insects, pollen, or dust.
- Unlike a closed door, the mosquito net allows you to enjoy the view and natural light while remaining protected inside.
- They offer a certain degree of privacy: you can see outside clearly, but passersby struggle to see the details inside the van.

# AIRVAN

Maximum ventilation, minimum effort: your essential accessory

**Simple assembly**

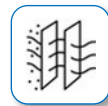

**Rubber edging for perfect sealing**

**Scratchproof material**

**Shockproof material**

**Constant air flow**

**Effective insect protection**

**Effective rain protection**

**Material: polycarbonate**

- It's easy to assemble thanks to its rear rails that fit perfectly to the vehicle.
- Lightweight and easy to handle, yet durable and effective.
- It is made of a shockproof and scratchproof painted polycarbonate material.
- Each grille has a built-in mosquito net that functions as a very effective insect protection.
- It is structured in such a way that no water can penetrate through its ventilation slats even when it's raining.
